

Foot Prints

One night a man dreamed he was walking along the beach with the Lord. Across the sky flashed scenes from his life. For each scene, there were two sets of footprints; one belonging to him and other to the Lord. When the last scene of his life flashed before him, he looked back at the footprints in the sand and noticed one set of footprints. He also noticed that it happened at the very lowest and saddest times of his life. This really bothered him and he questioned the Lord about it. "Lord you said that once I decided to follow you, you'd walk with me all the way. But I noticed that during the most troublesome times in my life, there is only one set of footprints, I don't understand, why when I needed you most, would you leave me." The Lord replied, "My precious, precious child, I love you and I would never leave you during the times of trial and suffering, when you see only one set of footprints... It was then that I carried you."
